***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-12, drawn to cooling arrangement for electronic apparatus, classified in class 361, subclass 395.
  - II. Claims 13-19, drawn to method of control of cooling fans, classified in class 340, subclass 584.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I and Group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because cooling arrangement of Group I does not require the fan control of Group II. The subcombination has separate utility such as controlling of speed of two motors.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. During a telephone conversation with Mr. Jeffrey D. Karceski, Reg. No. 35,914 on 03/23/05 a provisional election was made without traverse to prosecute the invention of Group I, claims 1-12. Claims 13-19 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

#### **EXAMINER'S AMENDMENT**

6. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jeffrey D. Karceski, Reg. No. 35,914 on 03/23/05.

The application has been amended as follows: claims 13-19 are canceled as non-elected claims; in claim 1, line 8 after "member" insert --the first fan module being provided in the housing more inwardly than the heat-radiating member--; in claim 2, lines 3-4 delete [, the first fan module being provided in the housing more inwardly than the heat-radiating member,].

#### **REASONS FOR ALLOWANCE**

7. The following is an examiner's statement of reasons for allowance: the allowability, at least in part, resides in the structure of the cooling device having two heat-generating members being thermally connected to two separated by the wall section two heat radiating members; each radiating member is provided with cooling fan

module and the first fan module is provided in the housing more inwardly than the heat radiating member that is coupled to that fan module.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Boris L. Chervinsky whose telephone number is 571-272-2039. The examiner can normally be reached on 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynn D. Feild can be reached on 571-272-2800 ext. 35. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
